COURSE OVERVIEW: YEAR II LONGITUDINAL EXPERIENCE IN COMMUNITY OTOLARYNGOLOGY – HEAD & NECK SURGERY

The Otolaryngology - Head & Neck Surgery Longitudinal Experience (OHNS-LE) is a new initiative offered by the Department of Otolaryngology - Head & Neck Surgery to encourage student exposure to our specialty at community sites.

During OHNS-LE, students will participate in community-based otolaryngology - head & neck surgery over four afternoons spread throughout the second year of pre-clerkship. These half days would encompass clinic and operative exposure. This handbook can be used to identify potential preceptors and establish contact prior to initiating a longitudinal experience. Once a preceptor has been selected, please contact the undergraduate medical education director, Dr. Allan Vescan or the education coordinator, Andrea Donovan (ohns.educationcoordinator@utoronto.ca). Your request will be forwarded to the appropriate preceptor. Dates may be arranged and agreed on jointly by the student and preceptor once your request has been approved.

The goal of OHNS-LE is for students to develop an appreciation of the importance of otolaryngology-head & neck surgery in a community setting. During OHNS-LE, students can practice some of the basic history-taking and physical examination skills learned in ASCM I and ASCM II along with reinforcing the knowledge learned in the MMMD course. Students may have an opportunity to accompany preceptors in the operating room and in most cases being the first assistant in operations.
Michael Garron Hospital

Preceptor(s)        Dr. Al Chiodo

**Otolaryngologist-in-Chief**

**Sub-specialties:** Sinus Surgery, Thyroid Surgery and Paediatric Surgery

**Contact Information:**
840 Coxwell Avenue, Suite 201
Toronto, ON M4C 5T2
**Office:** (416) 510-9962
**Fax:** (416) 510-9963

Dr. William El Masri

**Sub-specialty:** Head & Neck Endocrine Surgery

**Contact Information:**
658 Danforth Avenue, Suite 304
Toronto, ON, M4J 5B9
**Office:** (416) 406-6540
**Fax:** (416) 406-6541

Dr. Bradley Hubbard

**Sub-specialty:** General Otolaryngology

**Contact Information:**
840 Coxwell Avenue, Suite 201
Toronto, ON M4C 5T2
**Office:** (416) 510-9962
**Fax:** (416) 510-9963
**Email:** brad.hubbard@mail.utoronto.ca
Dr. Oakley Smith

Sub-specialties: Rhinoplasty, Revision Rhinoplasty

Contact Information:
2349 Queen Street West
Toronto, ON, M4E 1H2
Office: (416) 465-5795
Fax: (416) 465-5701

Location
825 Coxwell Avenue, Toronto, M4C 3E7

TTC Directions
Take Eastbound subway to Coxwell Station, board bus #70A (O’CONNOR TO EGLINTON). The bus will stop at Toronto East General Hospital (Coxwell Avenue and Mortimer Avenue).

Clinical Experience/Strengths
- Community general otolaryngology - Head & Neck surgery experience
- Image guided endoscopic sinus surgery
- Paediatric surgery
- Thyroid surgery
- Rhinoplasty
- Head & Neck endocrine surgery
Preceptor(s)  Dr. Everton Gooden  **Sub-specialty:** Head & Neck Endocrine Surgery  **Contact Information:** 685 Sheppard Ave East, Suite 402 Toronto, ON M2K1B6  **Office:** (416) 499-5558  **Fax:** (416) 499-9392

Dr. David Goldfarb  **Sub-specialties:** Paediatric Surgery, Management of Snoring, Sleep Apnea and Related Disorders  **Contact Information:** 685 Sheppard Ave., Suite 402 Toronto, ON M2K 1B6  **Office:** (416) 499-5558  **Fax:** (416) 499-9392

Dr. Thileep Kandasamy  **Sub-specialty:** Otology  **Contact Information:** 685 Sheppard Ave., Suite 402 Toronto, ON M2K 1B6  **Office:** (416) 499-5558  **Fax:** 416-499-9392
Dr. Manish Shah

Sub-specialties: Head & Neck Oncology, Laryngology

Contact Information:
685 Sheppard Ave East, Suite 402
Toronto, ON M2K1B6
Office: (416) 499-5558
Fax: (416) 499-9392

Location
685 Sheppard Ave., Suite 402, Toronto, ON M2K 1B6

TTC Directions
Take Yonge line North to Sheppard station and transfer to Sheppard line Eastbound to Bessarion station. Walk west on Sheppard Avenue E.

Clinical Experience/Strengths
• Head & Neck endocrine surgery
• Paediatric surgery
• Otology
• Head & Neck oncology
• Laryngology
• Snoring, sleep apnea and related disorders

TTC Directions  
Etobicoke General Hospital - Take Northbound subway on University-Spadina line to Wilson station, board bus #96 (TOWARDS HUMBER COLLEGE) and get off at Humber College boulevard and Highway 27. Walk 120m East on Humber College boulevard to William Osler Health
Clinical Experience/Strengths

- Rhinology
- Facial plastic surgery
- Head & Neck oncology
- Thyroid surgery
CASE LOGS

Documentation and electronic logging of clinical experiences through case logs on Medsis is mandatory for the Otolaryngology - Head & Neck Surgery Clerkship Rotation. The course director at the end of the block will review the final reports online.

The required clinical encounters include one each of the following: dizziness/vertigo, hearing loss, nasal obstruction and neck mass. The required procedure is performing otoscopy at least once. Students are also encouraged to work on the otoscopy simulator (Oto-Sim™) available at each of the teaching sites as well as review the online cases available in the course materials section. The required clinical encounters and procedures are listed under the case logs tab on Medsis.

It is the expectation of the course director that achieving all of the case logs requirements is feasible as all of the encounters are common. If the student anticipates that it does not appear likely that the encounters will occur, they are encouraged to inform the preceptor, site coordinator or course director of this possibility. Students will then be advised on how they can seek out the required clinical encounters.

Students are expected to have 80% of the encounters or procedures on real patients. However, each of the required encounters are also available as online cases and can be reviewed by clicking on the course materials button on the menu to the left. Reviewing these cases can serve to remedy any gaps in clinical encounters, again provided that at least 80% of the encounters occur on real patients.

If a student is unable to achieve 100% of the required clinical encounters by the end of the rotation (including the use of the online cases), the course director will contact the student to work out a satisfactory solution to remedy the gaps, including assigning an extra clinic with focused objectives.
ENCOUNTER CARDS

The encounter cards are a mechanism to foster interaction between academy site directors or faculty and students. They are not designed to be used for deriving the student’s clinical mark and the academy site director can use them to discuss the rotation with students at their exit encounter or interview. In a similar way, the medication list should also be discussed with students to introduce the most common pharmacologic agents used in our specialty with indications, contraindications, side effects etc. mentioned.

Otolaryngology-Head & Neck Surgery Rotation Encounter Card

Clinical skills feedback:

Goal is that each skill is observed at least once during the rotation
